ABOUT CONFERENCE

We are gratified to welcome you to be a part of “4th Annual Conference on Bacterial, Viral and Infectious Diseases” webinar going to be scheduled on July 30, 2021. This bacterial diseases 2021 webinar will focus on the theme “A step towards advancements in novel research and eradication of infectious diseases” that provides a global platform to discuss about the present and future challenges.

Bacterial diseases 2021 will provide an international platform for discussion and representing their views on present and future challenges in various infectious diseases, latest diagnosis methods and modern treatments. It gives an opportunity to the young to represent their thought regarding the forensic bacteriology, forensic virology and the techniques regarding this.

TARGET AUDIENCE

- Microbiologists
- Pathologists
- Epidemiologists
- Dermatologists
- Allergists
- Immunologists
- Paediatricians
- Physicians
- Pharmacists
- Neurologists
- Infection Prevention and Infection Control Specialists
- Academic and Health Care Professionals
- Students
- Research Associates
- Health Care Associations and Societies
- Medical and Pharmacy Companies
- Medical Devices and Drug Manufacturing Companies
- Laboratory Technicians and Diagnostic Companies
- Business Entrepreneurs and Industrialists
- Tropical Medicine and Infectious Diseases

SESSIONS/TRACKS

- Bacterial Diseases and Infectious Diseases

- Communicable Bacterial Diseases
- Therapeutics for Infectious Diseases
- Vaccines against Infectious Diseases
- Neglected Tropical Diseases
- Clinical Microbiology and Virology
- Epidemiology of Re-Emerging Infectious Diseases
- Paediatric Infectious Diseases
- Causes, Symptoms and Diagnosis of Infectious Diseases
- Antiviral, Antibacterial, Antifungal Agents
- Global Spread of Viruses
- Advances in Antimicrobials, Vaccines and Therapeutics
- Covid-19 Vaccine Trails
