

Past Conference Report on Materials Engineering 2020

Soshu Kirihara

Osaka, Japan

Meetings International successfully anchored its leading “20th International Conference on Materials engineering and Nanotechnology” slated on November 25-26, 2020 at Singapore City, Singapore.

Materials Engineering 2020 is distinguished with the attendance of Editorial Board Members of supported Journals, Scientists, young and brilliant researchers, business delegates and talented student communities representing more than 25 countries, who made this conference rewarding and fecund.

Our International Materials Engineering Conference was based on the theme “Advancing the research & innovation on materials engineering & nanotechnology” which has encrusted the below

Scientific sessions:

- Materials Engineering and Technology
- Advanced Materials Devices
- Advanced Biomaterials and bio devices
- Graphene and 2D Materials
- Emerging Smart Materials
- Polymer Science & Engineering
- Biosensors and Bioelectronic Materials
- Materials for Green Technology
- Nanotechnology
- Carbon Nanostructures & Graphene
- Sustainable Energy and Development
- Fiber and Composites
- 3D printing materials
- Advanced Ceramics & Composite Materials
- Optical, Magnetic and Electronic Materials

The conference was initiated and embarked with an Opening Ceremony followed by a series of lectures delivered by members of the Keynote forum and Speakers. The peerless people who promulgated the theme with their exquisite talks were:

- Soshu Kirihara, Osaka University, Japan

- Heon Ju Lee, , HKC, Korea
- Shien-Ping Feng, Hong Kong University, Hong kong
- Yoichiro Koga, 3D Printing Corporation, Japan

Meetings International wishes to acknowledge with its deep sincere gratitude to all the supporters from the Editorial Board Members of our Open Access Journals, Keynote speakers, Honourable guests, Valuable speakers, Poster presenters, students, delegates to make this event a huge success.

Meeting International on behalf of Organizing Committee Members, Editorial Board Members and Poster Judge congratulates the all attendees for their outstanding contribution in the field of Materials Engineering and simultaneously encourage all the participants who tried to put their efforts in poster presentations and wish them success in their future research.

We are all inspired by your great words!

The curtains rose with the Opening Ceremony and then the introduction of Honourable guests and the affiliates of Keynote Forum. Sessions include keynote, plenary and oral. Poster Session was organized in the second day which grabbed the attention of students and young researchers. Insightful talks were rendered throughout the two days of the scientific program and the program ended with an extensive networking lunch. Meetings Int wishes to acknowledge all the organizing committee members, moderators, chairs, speakers, students, delegates in making this event a great success. We are also obliged to various delegate experts, company representatives and other eminent personalities who supported the conference by facilitating active discussion forums. We sincerely thank the Organizing Committee Members for their gracious presence, support, and assistance with the unique feedback from the conference.

As a unique issue in our highly indexed Journal of Polymer Science & Applications, the presented and accepted abstracts at the conference will be published.

Backed by a team of very motivated and dedicated colleagues, we now get the wheels to start rolling for our next edition, the Materials Engineering and Nanotechnology scheduled on November 25-26, 2021 We look forward to gracing your paramount work and sharing with us your research findings and opinions at Materials Engineering 2021.
